How to Answer

Your answer does not have to be perfect. Just answer in complete thoughts and use details from the chapter.

How to structure your answer

A strong answer usually has a few parts. Try these steps:

1. **Answer the question.** Start with one sentence that answers the question directly.
2. **Give an example.** Add a detail or moment from the chapter that shows what you mean.
3. **Explain why.** Tell why it mattered, or how it made you think or feel.
4. **Wrap it up.** Finish with a closing thought, a question, or a prediction.

The Summer Table: How does Summer's choice at lunch show her character?

Example answer: I think Summer's choice shows that she is brave and kind. She sits with Auggie even though other kids might judge her for it. She does not do it to get attention; she does it because she sees that he needs a friend. This makes me think Summer cares more about doing the right thing than being popular.

How to Answer (continued)

Via's Secret: What secret is Via keeping, and why does Auggie feel upset when he learns it?

Example answer: Via is keeping it a secret that she did not tell her family about the play at first. I think Auggie feels upset because he realizes Via may not want people at her school to know about him. That hurts him because he loves his sister and wants to be part of her life. I can also understand Via a little because she wants one place where she can just be herself.

The Shift: What shift happens in the way classmates treat Auggie? Why do you think it happens?

Example answer: The shift is that more kids start treating Auggie like he belongs. After the woods, they see that he is not just the kid who looks different; he is their classmate and friend. I think they also respect how brave he was. This shows that people can change when they really get to know someone.
