How to Answer

Your answer does not have to be perfect. Just answer in complete thoughts and use details from the chapter.

How to structure your answer

A strong answer usually has a few parts. Try these steps:

- 1. **Answer the question.** Start with one sentence that answers the question directly.
- 2. **Give an example.** Add a detail or moment from the chapter that shows what you mean.
- 3. **Explain why.** Tell why it mattered, or how it made you think or feel.
- 4. **Wrap it up.** Finish with a closing thought, a question, or a prediction.

When you meet an unfamiliar word in this chapter, what steps could you take to understand it without immediately asking someone?

Example answer: I would reread the sentence and look for clues about what the word might mean. Then I would check the sentences around it for an example or explanation. I could try replacing the word with my guess to see whether the sentence makes sense. If I were still unsure, I would use a dictionary and choose the meaning that fits the scene.

How to Answer (continued)

Would you rather handle a problem like the one in this chapter alone or with someone you trust? Explain your choice.

Example answer: I would rather have someone I trust help me think through a difficult problem. When I feel worried, I sometimes focus on what could go wrong instead of what I can do. Another person could help me notice choices I missed. I would still want to make my own decision, but I would feel better after talking it over.

Which part of this chapter would you most like to discuss with a friend, and why?

Example answer: I would most like to discuss the part that left me with the biggest question. I enjoy comparing ideas because a friend might notice a clue that I missed. We could each explain our thinking and check the chapter for support. Even if we disagreed, our conversation could help me understand the story better.
